CAREER OBJECTIVE

Motivated Electronics & Communication Engineering student with hands-on experience in AI, IoT, Embedded systems and web-based solutions. Passionate about building intelligent hardware-software solutions and eager to apply my strong technical and analytical skills to real-world projects.

EDUCATION

Bachelor of Engineering (B.E.) , RajaRajeswari College Of Engineering, Bangalore, Karnataka.	Present CGPA: 9.3/10
Branch: Electronics and Communication Engineering.	
Pre-University courses (PUC) , PES PU College, Bangalore, Karnataka.	2020-2022 GRADE:90.16%
Academic Subjects: PCMB	
Secondary School (SSLC) , SGM Public School, Bangalore, Karnataka.	2019-2020 GRADE:87.5%

PROJECTS

- **AI-Powered Autonomous Hydroponic Greenhouse** – Developing an AI and IoT-based smart greenhouse for crop monitoring, disease detection, and automated environmental control.
- **AI-Resume Analyzer** – Building a Python-based web application that analyses resumes using AI for skill extraction and provide suggestions to improve ATS compatibility. [[link](#)]
- **Krishi Sahay** – Built a prototype farmer assistance platform with a basic website/dashboard to help farmers resolve agricultural queries.
- **Real Time Monitoring of Bone Fracture Recovery** – Developed a prototype hardware model using embedded systems and IoT concepts with a dashboard for monitoring recovery data. [[link](#)]

TECHNICAL SKILLS

Programming Language: Python, JAVA (Basics).

Tools & Platforms: Arduino IDE, GSM, VS Code, Proteus, Git, GitHub, Streamlit, Microsoft Excel.

Technical Strengths: Embedded Systems, Internet of things, Sensor Interfacing.

SOFT SKILLS

Team collaboration | Analytical Thinking | Communication | Leadership | Problem Solving | Time management | Adaptability

CERTIFICATIONS

- IEEE Ideathon 2025 (ACS College Of Engineering) – **2nd Runner-Up**. [[link](#)]
- GenAI Forge 24-hour Hackathon – Participant. [[link](#)]
- Two-days Hands on Training on Internet of Things (IoT). [[link](#)]
- PCB Design and Fabrication Workshop – Indian Tech keys. [[link](#)]

ORGANIZATIONAL ROLES

- **Social Media Manager – TheVoltHub Technical Club**
- Handled social media platforms to support promotion and visibility of technical events.
- Contributed to content creation and assisted in promotional and outreach activities.
